

CHROMOSOFT InFOTECH (MASTER OF HPLC/LCMS/MS EXPERTS)

- Our analytical/bioanalytical laboratory features state-of-the-art equipments to meet the diverse demands of our clients. We work closely with our clients to determine the needs of the assay, regulatory requirements, turn around times, report requirements, and make every effort to work within their budgetary restrictions. Each assay and compound are evaluated on an individual basis with regards to the approach to development and providing a comprehensive and scientifically sound validation.
- Manned by highly qualified and experienced analytical scientists, we keep pace with the requirements of the industry and the expectations of regulatory agencies.
- We provide assay development and validation, with professional Quality Control Systems to provide clients with reliable and robust assays for both preclinical and clinical development .

The lab is equipped with the following equipments & facilities to identify and analyze compounds, rapidly and reliably -

- LC-MS/MS
- GC-MS
- UPLC
- HPLC with various detectors
- Deep Freezing Units
- Facility for handling and analysis of light sensitive drugs
- Continuous power supply by means of UPS and Generators
- Networked chromatographic data management system and dedicated servers

Capabilities:-

- We possess core competence in areas ranging from Method Development, Validation, and Analysis as per global regulatory requirements and guidelines.

- Our bioanalytical laboratory offers highly selective and sensitive assays of drugs, metabolites, enantiomers and endogenous compounds in biofluids through a continuously growing list of analytical methods (API, New molecules, Known molecule) for a wide range of compounds.

With the full implementation of QC & QA procedures our lab produces top quality data. (Consultancy) in North unit Heads.

- Aripiprazole
- Atenolol
- Atorvastatin
- Bupropion & Hydroxy Bupropion
- Carvedilol
- Cefixime (HPLC)
- Cephalexin
- Cetirizine
- Cilostazole
- Doxazosin
- Doxycycline
- Duloxetine
- Efavirenz
- Ezetimibe
- Felodipine
- Glimepiride
- Hydroxychloroquine
- Irbesartan
- Naproxen
- Nateglinide

- Nevirapine
- Pramipexole
- Pravastatin
- Pregabalin
- Repaglinide
- Rifabutin
- Rifampin
- Solifenacin
- Stavudine
- Telmisartan
- Terbinafine
- Testosterone
- Valsartan
- Venlafaxine
- Zolpidem
- Zonisamide

Our Services:

Since our company focuses more on academicians and Research Scholars, We give our hand to a greater extent to complete their Graduation, Post Graduation and Doctorates by doing their project work successfully. The areas at which our focuses are:

I. Pharmaceutics

Formulation

1. Granulation
2. Encapsulation / Micro-encapsulation
3. Transdermal Patches
4. Tablets
5. Hard Capsules etc..

Invitro Study

1. Dissolution
2. Disintegration
3. Osmosis & Reverse-Osmosis
4. Physio – Chemical Properties

II. Pharmacology

1. Invivo study in Rat, Rabbit and Guinea pig etc
2. Invivo Toxicological studies
3. Pharmacokinetics study

III. Analytical

1. Column chromatography
2. HPLC analysis
3. Bio-Analysis in HPLC

IV. Other Services

1. Custom Curation
2. Data Management
3. Business development
4. Business intelligence and documentation
5. Bio-Informatics
6. Chemo—informatics and Drug Design
7. Hands-on HPLC and Bio-Analysis training / Industry application
8. Quality analysis for Pharma FG

Benefits to Individuals:

- ❖ Equips with knowledge, processes, methods, tools & techniques to manage projects in time and within budget
- ❖ Will improve your efficiencies across the board, by emphasizing the importance of key objectives, milestones, deliverables and working within the constraints of scope, time, cost, and quality
- ❖ Businesses are becoming ever more centered on projects, and certified project managers are IN DEMAND
- ❖ Increase your functional knowledge of production and inventory management.
- ❖ Improve efficiency across the processes of your organization's supply chain.
- ❖ Streamline operations through accurate forecasting.
- ❖ Predict outcomes more accurately.
- ❖ Maximize customer satisfaction by delivering products and services Just-in-Time.
- ❖ Increase profitability by optimizing your organization's inventory investment.
- ❖ Enhance your credibility among peers, employers, and customer
